City Council
Chief Clerk's Office
402 City Hall
Philadelphia, PA 19107

RESOLUTION NO. 210335

Introduced April 15, 2021

**Councilmember Parker
for
Council President Clarke**

**Referred to the
Committee of the Whole**

RESOLUTION

Approving the Rebuild Project Statement for Fiscal Years 2020, 2021, and 2022 pursuant to Bill No. 170206.

WHEREAS, Under Bill No. 170206, City Council must approve, by Resolution, the Rebuild Project Statement in order to authorize the expenditure of proceeds of the sale of Rebuild bonds; and

WHEREAS, Council wishes to approve the Rebuild Project Statement for Fiscal Years 2020, 2021, and 2022; now, therefore, be it

RESOLVED, BY THE COUNCIL OF THE CITY OF PHILADELPHIA, That the Rebuild Project Statement for Fiscal Years 2020, 2021, and 2022, attached hereto as "Exhibit A," is hereby approved.

Preliminary Project Statement

FY2020 - FY2022

RESOLUTION NO. 210335 continued

REBUILD Project Statement FY2020 – FY2022

In accordance with Bill No. 170206, this Rebuild Project Statement sets forth a proposed plan for disposition of Rebuild bond proceeds pursuant to that ordinance, as follows:

- I. Projected Rebuild Revenues and Expenditures, FY2020 – FY2022
- II. Site Selections FY2020 - FY 2022

Rebuild bond proceeds are used exclusively for capital improvements at City of Philadelphia libraries, parks and recreation centers. Grant funds and City Capital funds will also be used for capital improvements. Community engagement work, workforce development programming, and supports for diverse, local businesses will be funded by grant funds.

The FY2018-2019 Project Statement was approved by City Council in June of 2018. The FY2020 Rebuild Project Statement was introduced in May 2019 but was not heard by City Council. The FY2020-2021 Project Statement was not introduced in 2020 due to COVID-19. As a result, this document covers the time period of FY2020 through FY2022.

Background

Rebuilding Community Infrastructure (Rebuild) is investing hundreds of million dollars in Philadelphia's parks, recreation centers, playgrounds and libraries. Rebuild is revitalizing shared public spaces, engaging communities, and promoting economic opportunity through diversity and inclusion. More than \$190 million has already been committed via grant agreements or contracts; and designs that are currently in progress, obligate an additional \$66 million for future construction projects.

- Physical Improvements. Prior to Rebuild, following decades of under-investment and deferred maintenance due to competing budget priorities, only 10% of more than 400 neighborhood Free Library of Philadelphia (FLP) and Philadelphia Parks and Recreation (PPR) facilities were considered to be in excellent condition. The remaining 90% of facilities were in need of improvements, ranging from small scale renovations to complete overhauls. Over the course of Rebuild, improvements are being completed at sites approved through the Project Statement.
- Community Engagement. Rebuild is engaging individuals who use and live near selected sites in the planning process for major projects, thus creating opportunities to provide input that will inform improvements and eventual programming at the facility.
- Diversity and Inclusion. Rebuild is serving as a model for diversity and economic inclusion in the design and construction industries by connecting minority- and women-owned businesses with contracting opportunities through outreach and technical support. Rebuild's goal is to connect Philadelphians to family-sustaining employment in the construction industry. Efforts are focusing on minorities and women and include tracks for individuals who are new to the construction industry as well as experienced workers who have not previously gained membership in the trades.

Projected Rebuild Revenues and Expenditures FY2020 – FY2022

City of Philadelphia

RESOLUTION NO. 210335 continued

Projected Rebuild Revenues

Rebuild is funded by both public and private revenue sources and is made possible by the Philadelphia Beverage Tax. Dedicated funding for Rebuild will include bond proceeds; City of Philadelphia (City) capital funding; and grants. These sources are summarized in Table 1 below.

Table 1
Current and Anticipated Rebuild Funding Sources (\$M)

Source	Current Funding (FY17 – FY21)	Anticipated Future Funding	Total
Rebuild Bonds (Issued by PAID)	\$87	\$153 - \$188	\$240 - \$275
City GO Capital Funds	\$25	\$23	\$48
William Penn Foundation Grant	\$40	\$47 - \$57	\$87 - \$97
Other Awarded Grants	\$15	\$10	\$25
TOTAL	\$167	\$233 - \$278	\$400 - \$445

Adjustments to projected revenue have been made based on several factors including:

- First bond release was adjusted to reflect lower Beverage Tax proceeds;
- The Philadelphia Beverage Tax litigation resulted in a 24 month delay to launching the program and therefore limited the ability to fundraise from private donors.

Rebuild Bonds. The single largest source of funding for Rebuild will be bonds issued by PAID, authorized by Bill no. 170206. The first tranche was issued in November 2018 (FY19), following a favorable resolution of the Philadelphia Beverage Tax litigation. The final amounts of future issuances will depend on market conditions at the time of issuance and the pace of current spending.

City GO Capital Funds. Rebuild funding sources include \$48 million in City of Philadelphia capital funds. FY2017, FY2018, FY2019 and FY2020 amounts were in the approved Capital Budgets for those years; amounts for future years are included in the Six Year Capital Program for Fiscal Years 2022-2024. These funds are designated for Rebuild in the annual capital appropriations of Philadelphia Parks and Recreation and the Free Library of Philadelphia.

City of Philadelphia

RESOLUTION NO. 210335 continued

Grant Funds. Rebuild has a grant commitment of up to \$100 million from the William Penn Foundation, including \$4.8 million to launch the program. The actual amount will depend on the total amount of bonds issued for Rebuild and additional funds that Rebuild raises. Fundraising efforts are underway to obtain additional grant commitments for Rebuild from other sources such as philanthropic foundations and state agencies. In addition to the \$1 match for every \$4 dollars of bond and capital funds issued, every grant dollar raised will release a portion of the William Penn Foundation funding – \$1 of match for every \$2 commitment – as an incentive for donors. To date, Rebuild has been awarded \$15 million of grant funding; which will leverage an additional \$7.5 million of William Penn Foundation funds.

City of Philadelphia

RESOLUTION NO. 210335 continued

Projected Rebuild Expenditures

Table 2 shows projected expenditures by budget category and by each funding source. As shown in the table, the costs of community engagement and most of Rebuild’s diversity & inclusion work are not expected to be eligible uses for Rebuild bond proceeds or GO capital. These efforts will be funded from grant sources, as will Rebuild’s administrative costs.

Table 2
Rebuild Projected Expenditures by Source, through FY2022 (\$M)

Budget Category	Rebuild Bonds	GO Capital	Grants	FY 2022 Total
Design and Pre-Construction	\$21.5	\$1.6	\$0.0	\$23.1
Construction	\$70.4	\$3.2	\$1.1	\$74.7
Project Management	\$10.9	\$0.1	\$0.2	\$11.2
Diversity & Inclusion - EOP Monitoring*	\$0.7	\$0.0	\$0.0	\$0.7
Diversity & Inclusion - Workforce Development, Business Supports*	\$0.0	\$0.0	\$3.8	\$3.8
Community Engagement **	\$0.0	\$0.0	\$3.1	\$3.1
Administrative Costs **	\$0.0	\$0.0	\$8.9	\$8.9
TOTAL	\$103.5	\$4.9	\$17.1	\$125.5

**Rebuild diversity and inclusion expenditures (workforce development and small business supports) are not expected to be capital eligible. EOP Monitoring is expected to be capital eligible.*

***Rebuild community engagement and administrative costs are generally not expected to be capital eligible.*

City of Philadelphia

RESOLUTION NO. 210335 continued

Intended Uses of Rebuild bond Proceeds

Bonds for Rebuild will be issued by PAID, as authorized by Bill no. 170206. The first tranche of \$86.5 million was issued in November 2018, following a favorable resolution of the Philadelphia Beverage Tax litigation. The final amounts and timing of future issuances will depend on market conditions at the time of issuance but are estimated to each be within range of \$77 to \$95 million.

Rebuild bonds may be used for purposes that are eligible under applicable bond covenants – generally, for construction and related design services. Proposed expenditures are subject to a review by the Office of the Director of Finance and the Office of the City Controller to verify capital eligibility under current guidelines¹. Table 3 below shows projected uses of Rebuild bond proceeds for the period July 2019 to June 2022. Council’s prior approval of the FY18 – FY19 Project Statement authorized the use of over \$45M of the bond proceeds. This Project Statement will authorize an additional amount as detailed below. The authorization will also include the issuance of a bond tranche in FY22. Each of the budget categories is described after the table.

Table 3
Projected Use of Rebuild Bond Proceeds, FY2020-FY2022 (\$M)

Budget Category	Previously Approved Rebuild Bonds	Rebuild Bonds Subject to Council Approval	FY 2022 Total
Design and Pre-Construction	\$3.7	\$17.8	\$21.5
Construction	\$40.5	\$29.9	\$70.4
Project Management	\$1.1	\$9.8	\$10.9
Diversity & Inclusion*	\$0.0	\$0.7	\$0.7
TOTAL	\$45.3	\$58.2	\$103.5

**EOP Monitoring is the only type of Diversity and Inclusion expenditure that is bond funded. Other Diversity and Inclusion expenditures such as Workforce Development and Business Supports are grant funded. Refer to Table 2 for the full category budget, inclusive of grant funds.*

BOND FUNDED BUDGET CATEGORIES

¹ Please refer to City of Philadelphia Capital Eligibility Guidelines Effective March 21, 2014.

City of Philadelphia

RESOLUTION NO. 210335 continued

- Design and Pre-Construction. This budget line will accommodate all design services.
- Construction. Construction expenditures will be spent on Rebuild projects at approved sites. Most projects will be managed by Project Users, the Philadelphia Redevelopment Authority (PRA), by PPR skilled trades staff, or by the City's capital project management staff. Projects may be implemented individually or may be grouped and managed together to achieve economies of scale or to allow for a more predictable and continuous stream of work for small, local businesses and for workforce program participants and graduates. The construction budget includes an industry standard 10% contingency.
- Project Management. This line includes the oversight of Rebuild projects to ensure high quality design and construction projects. It is inclusive of such program/ project management services as project status tracking and reporting; review of construction documents for consistency with PPR or FLP requirements; and construction inspection.
- Diversity & Inclusion. This category includes Economic Opportunity Plan (EOP) monitoring, which is the only bond eligible task in this category. (See Table 2 on page 6 for the full budget across all funding categories.)

GRANT FUNDED BUDGET CATEGORIES

- Diversity & Inclusion. This category includes costs related to providing pathways for more minorities and women into the building trades; specifically, costs associated with paid, on-the-job training for participants, and training, education, and supports provided while participants prepare to take apprentice tests. This category also includes the costs of professional training to support minority- and women-owned businesses to secure Rebuild contracts and build their capacity and sustainability.
- Community Engagement. This category includes costs associated with developing and implementing community engagement through community meetings, awareness building and capacity building.
- Administrative Costs. Administrative costs include staffing, overall program coordination; reporting and financial management.

Site Selections FY2020 – FY2022

City of Philadelphia

RESOLUTION NO. 210335 continued

II. Site Selections - FY2020 – FY2022

The Rebuild sites presented in this section have been selected based on the following:

- Information provided by members of City Council.
- Information about the physical conditions of sites;
- Information provided by staff of PPR and FLP; and
- Information gathered from City data US Census Data and The Reinvestment Fund's Market Value Analysis data about Philadelphia neighborhoods, indicating where investments can further the Administration's primary goal of working in areas with great needs, like poverty, drug offenses, and health risks, and the secondary goal of encouraging investment that could help stabilize or revitalize a community.

Locations of Approved Rebuild Sites

City of Philadelphia

RESOLUTION NO. 210335 continued

Tables 4 below list the Philadelphia Parks & Recreation and Free Library of Philadelphia sites that will be eligible for Rebuild funding in FY2022 and may be leased to PAID for implementation by Project Users. The sites in Table 4 are the 64 sites that were approved in the FY18-FY19 Project Statement and will continue to be implemented in FY2022. No new sites are proposed to be added at this time.
