F-108.4 Vacant Property Task Force

1. Legislative Findings

(1.1) Large numbers of vacant commercial and residential properties in the City have been left unattended for many years.

(1.2) Many of these vacant properties are in such a state of disrepair, as to make them uninhabitable, and often in violation of building, fire, health and other City codes.

(1.3) Some owners of these vacant properties are delinquent in payment of real estate taxes, water, sewer and other such municipal charges and liens.

(1.4) These vacant properties create a public health, safety and welfare hazard and act as a blighting influence on surrounding properties.

(1.5) Prolonged periods of nonpayment of tax obligations and other municipal charges and liens by owners of these properties indicate an intent to abandon such properties.

(1.6) Certain of these properties cannot be accessed by City code officials for necessary public health, safety and welfare inspections due to the inability to locate owners, heirs or successors in title or other such defects or ambiguities in ownership.
