Council of the City of Philadelphia  
Office of the Chief Clerk  
Room 402, City Hall  
Philadelphia

(Resolution No. 000597)

## RESOLUTION

Authorizing the Committee on Transportation and Public Utilities to conduct comprehensive comparative research into the state of the City's transportation and public utilities systems and hold hearings into the same.

WHEREAS, The state of our transportation and public utility systems have a significant impact on the economic and fiscal conditions of the City; and

WHEREAS, Massive investments have and will continue to be made in public transportation and public utilities; and

WHEREAS, The public benefits and costs of transit and public utility investments, expenditures and decisions have major effects on the livability and competitiveness of the City; and

WHEREAS, Comprehensive comparative data is needed on the state of the infrastructure, organization, operations, finances and costs of our transportation and public utility systems; and

WHEREAS, This information is necessary to assess the efficacy of our current systems and potential for improvement; now therefore

RESOLVED, That the Committee on Transportation and Public Utilities conduct comprehensive research into the state of the transportation and public utility systems in the ten largest U.S. cities and produce a report of their findings; and

FURTHER RESOLVED, That the Committee on Transportation and Public Utilities hold hearings into the state of operations of the City's transportation and public utility systems.
