WHEREAS, The AW139 has been in production for 10 years, and Leonardo has produced more than 250 of the helicopters in Philadelphia. As prime contractor, Boeing will integrate the military-specific equipment that will need to be added to the helicopter to meet survivability and mission requirements, as well as managing the system interfaces and logistics support; and

WHEREAS, Leonardo Helicopters, formerly AgustaWestland Philadelphia Corporation, has operated its aerospace and defense manufacturing at a site adjacent to the Northeast Philadelphia Airport since 1980; and

WHEREAS, The winning contract will support more than 560 jobs between Boeing and Leonardo; now, therefore, be it
