[Photographs] *Recorded images* collected as part of the automated red light enforcement system [must be 35-millimeter film only,] must only record traffic violations and may not be used for any other surveillance purposes. (3) Notwithstanding any other provision of law, information prepared under this Chapter and information relating to violations under this Chapter which is kept by the City or its authorized employees or agents, including [photographs] *recorded images*, written records, reports or facsimiles, names, addresses and the number of violations under this Chapter, shall be for the exclusive use of the City, its employees, its authorized agents and law enforcement officials for the purpose of discharging their duties under this Chapter.
