(.3) Special Provisions for Woodland Avenue Business District for Sidewalk Vending.

(A) Beginning July 1, 2015, the Department is authorized to issue a single sidewalk vending license governing multiple sidewalk vending spaces as defined in this Section in the area defined in subsection §9-206(10)(h). Any such license shall be renewable annually as provided in § 9-206(5). Eligibility for such license shall be limited to business associations and non-profit organizations associated with that vending area and shall be awarded based on ability to manage the allocation of vending spaces. An applicant for such license shall provide the name and contact information of a person who may be contacted regarding compliance with this Section, and an address at which the organization will receive mail and accept service.

(B) Such organizations shall be responsible for allocating the spaces designated in the license among vendors who seek to use such spaces. Preference shall be given to persons holding licenses before July 1, 2015, and who have regularly occupied or vended at the licensed location. Remaining spaces shall be distributed in an equitable manner, such as first-come first-serve, a lottery or other equitable system.

(C) The organization shall require payment of the fee for each space used, as well as reasonable administrative costs, as a condition of qualification for use of a space. The amount of the fee charged and any administrative costs assessed shall be the same for each vendor in this District, and shall be approved in advance by the Department.

(D) The organization shall provide by agreement with each vendor that the vendor shall comply with all provisions of this Section 9-206 and all other applicable laws.

(E) The organization and each individual vendor shall each be responsible for compliance with this Section 9-206.

(F) At least annually, in connection with the renewal of its license, the licensee organization shall provide a report to the Department, containing a list of the vendors currently licensed to vend in this District, and the amount of any fees proposed to be charged to vendors for the next license period.

(.4) In addition to any restrictions provided in this Section 9-206 (which shall be superseded by any conflicting provisions of this subsection 9-206(10)(h)(.4)), no Vendor shall:

(A) vend within ten (10) feet of another sidewalk vendor location;
