City of Philadelphia
Substantial Amendment to the Annual Action Plan - City Fiscal Year 2020
HUD Program Year 2019
CARES Act Allocation - CDBG, ESG, and HOPWA

BACKGROUND

On March 27, 2020 the Federal Coronavirus Aid, Relief and Economic Security Act (CARES) was signed into law to assist communities in their efforts to prevent, prepare for and respond to the coronavirus COVID19. The CARES Act included supplemental formula allocations to the United States Department of Housing and Urban Development (HUD) Community Planning and Development (CPD) programs. A total of \$26,257,809 in CDBG-CV, \$12,976,572 in ESG-CV, and \$1,059,147 in HOPWA-CV funding was allocated to the City of Philadelphia. In addition, HUD awarded \$117,251 in HOPWA-CV funding to the City for Bensalem Township, which the City manages for HUD under a separate grant agreement.

In accordance with the City’s Citizen Participation Plan, a substantial amendment to the *City’s FY 20 Annual Action Plan* is required. In response to COVID-19 and the urgency of need, HUD issued waivers for the substantial amendment process that reduce the public comment period to not less than 5 days, allow for virtual public hearings when necessary for public health reasons, and provide for reasonable notice to provide opportunity for public comment.

The City notified HUD of its intent to utilize these waivers and amended its Citizen Participation Plan to incorporate these changes. In addition, the City must provide notice of the *Proposed Substantial Amendment* to individuals and organizations on DHCD’s electronic mailing list, public notice of the proposed amendment in a newspaper of general circulation, and guidance as to where it may be reviewed and how comments on the proposed change may be submitted. City Council will hold a public hearing to allow for additional resident participation prior to Council consideration of the *Proposed Substantial Amendment*. Notification by City Council will be in the “Legal Notices” section of various newspapers.

The proposed programs outlined in this amendment and detailed below are designed to continue and implement programs to respond to increased housing, economic and community development needs due to job loss and

local funding reductions as a result of COVID-19. The City and its grantees will comply with all HUD CARES Act programmatic regulations and special conditions.

Addendum to Exhibit A

City of Philadelphia Substantial Amendment to the Annual Action Plan - City Fiscal Year 2020 HUD Program Year 2019 CARES Act - Second Allocation ESG

BACKGROUND

On March 27, 2020 the Federal Coronavirus Aid, Relief and Economic Security Act (CARES) was signed into law to assist communities in their efforts to prevent, prepare for and respond to the coronavirus COVID19. The CARES Act included supplemental formula allocations to the United States Department of Housing and Urban Development (HUD) Community Planning and Development (CPD) programs. A second allocation of \$22,293,192 in ESG-CV was allocated to the City of Philadelphia.

In accordance with the City's Citizen Participation Plan, a substantial amendment to the *City's FY 20 Annual Action Plan* is required. In response to COVID-19 and the urgency of need, HUD issued guidance that ESG recipients have the immediate ability to omit the citizen participation and consultation requirements for substantial amendments and new consolidated plan submissions for ESG-CV funding. The City will meet the HUD requirement to publish how it will use this allocation on its website -

<https://www.phila.gov/documents/five-year-consolidated-plan-annual-action-plans-and-reports/>. The proposed activities and budget are detailed below.

PROPOSED AMENDMENT

The City, through the Office of Homeless Services, plans to meet new and emergent needs for people experiencing or at imminent risk of homelessness in the wake of the COVID pandemic. The anticipated service

suite to be provided includes homeless outreach to those who are unsheltered, emergency and temporary housing, homelessness prevention and rapid rehousing with a special focus on those who are at greater risk of serious illness if they contract COVID. OHS is also exploring the establishment of tiny home villages and other alternative temporary housing options that enable people to both have community and personal space to protect themselves from contracting or spreading the virus. OHS will also focus on addressing the unique needs of people with limited English proficiency, refugees, immigrant and underserved communities who may be living in unsafe conditions.
